

Château de Mérande

Arbin Mondeuse “La Belle Romaine”

Château Merande is located in Arbin, the home of the most distinguished Mondeuse in Savoie, and as such, 15 of their 25 acres of holdings are planted to that varietal. The rest of the estate is dedicated to production of Roussanne from Chignin and Roussette de Savoie. The Genoux brothers, Daniel and Andre, are part of a family lineage of winemakers that goes back generations, but that didn't stop them from seeking additional consultation Yann Pernult, a young vigneron with deep ties to the land in Savoie. With his influence, Château Merande is now pursuing biodynamic practices, including the use of natural fertilizers and soil preparations and the exclusion of pesticides and weed killers. In addition they are a member of the Biodivine group, which helps maintain biodiversity in vineyards.

Appellation Vin de Savoie AOC

Varietals 100% Mondeuse

Location Arbin

Quantity Produced 40,000 bottles

Soil Clay and limestone
