

## PROFILE

The Jura is a small, mountainous winegrowing region located between Burgundy and Switzerland in the far east of France. The region is fairly isolated and has retained a strong sense of tradition, marked by unique grapes and unusual wine styles. The owners of Lulu Vigneron, Ludwig Bindernagel and Nathalie Eigenschenck, purchased the Domaine in 2000. Their first vintage came shortly after in 2002. Their motto of “the wine is made in the vineyard” is exemplified by the fact Ludwig works with the vines every day. The strict attention to detail and quality helps create very complex wines with depth and layers that reflect the individuality of Jura.
