This too is overtly floral in character with plenty of spice, violet, rose petal and herbal tea nuances to the mostly red cherry aromas. There is better volume and mid-palate concentration to the delicious medium weight flavors that deliver reasonably good length on the mildly austere finale. The stem inclusion is also evident here but the superior mid-palate density helps to better preserve the overall balance. (Monterey County, 100% whole cluster, 100 cases, 12.8%)
